Technology acceptance questionnaire - VR

This questionnaire aims to assess the potential adoption of the INDUX-R technology by its target users. Please indicate the extent to which you agree or disagree with each statement.

	Strongly disagree						**Strongly agree**
	1	**2**	**3**	**4**	**5**	6	7
1. Using the system will improve my performance in my job.							
2. Using the system in my job will increase my productivity.							
3. Using the system will enhance my effectiveness in my job.							
4. I find that the system will be useful in my job.							
5. My interaction with the system is clear and understandable.							
6. Interacting with the system does not require a lot of my mental effort.							
7. I find the system easy to use.							
8. I find it easy to get the system to do what I want it to do.							
9. I could complete the job using the system if there was no one around to tell me what to do as I go.							
10. I could complete the job using the system if I had just a built-in help facility for assistance.							
11. I could complete the job using the system if someone showed me how to do it first.							
12. I could complete the job using the system if I had used a similar system before this one to do the same job.							
13. Virtual Reality technology does not scare me at all.							
14. Working with Virtual Reality makes me nervous.							
15. Virtual Reality makes me feel uncomfortable.							
16. Virtual Reality makes me feel uneasy.							
17. I find the system to be enjoyable.							
18. The actual process of using the system is pleasant.							
19. I have fun using the system.							
20. In my job, usage of the system is important.							

	Strongly disagree **1**	**2**	**3**	**4**	**5**	6	**Strongly agree** 7
21. In my job, usage of the system is relevant.							
22. The use of the system is pertinent to my various job-related tasks.							
23. The quality of the output I get from the system is high.							
24. I have no problem with the quality of the system's output.							
25. I rate the results from the system to be excellent.							
26. I have no difficulty telling others about the results of using the system.							
27. I believe I could communicate to others the consequences of using the system.							
28. The results of using the system are apparent to me.							
29. I would have difficulty explaining why using the system may or may not be beneficial.							
30. Assuming I had access to the system, I intend to use it.							
31. Given that I had access to the system, I predict that I would use it.
